

L350 Multipress

- Multipress with chromed bar and lineal bearings.
- For discs of 28 mm or 50 mm (olympic), thanks to the adapter included as standard.
- Designed for optimum exercise biomechanics. Guarantee smooth, natural movements for full muscle concentration.
- Reinforced frame, for more security and protection.
- **Three layer coating.** The design of this professional, up-to-date, stylish system is enhanced still further by its -layer coating comprising an initial anti-corrosion primer, for guaranteed durability, followed by an epoxy powder layer and fin.
- Structure raised 50mm above floor level with rubber tipped feet. This provides access for cleaning and vacuuming without scratching the paint.
- Chrome bar with knurled grip, which increases the adherence in the grip.
- 10 training height points for the bar. Allows more varied workout.
- Bar lock security system, swivel and height adjustable. Allows a safer exercise, preventing the bar from falling on the user in case of accident.
- 4 racks on the rear part for storing discs.
- 4 mm thick ST-37 / 40 steel frame. For guaranteed durability
- Tubes with rounded elliptical section, that prevent cuts and blows.
- Use of laser cutting technology. For optimum tube cutting precision.

Specifications:
